

INDEX TO VOLUME IV.

A			
Agriculture, dictionary of terms used in, and science, in Germany,	123, 137, 168	Bugs and worms,	31, 93
Agricultural papers, how to preserve,	63	Burn, to cure a,	165
Agricultural societies, information of desired, penitentiary, failures,	109, 149, 145	Butter-making, clarified, bad, the science of,	32, 85, 65, 126
Agriculturists, memorial from,	179	C	
Air plant,	106	Cabbages, on raising, pickled,	32, 165
Alpacas,	107	Cabbage sprouts,	82
Ammonia, soaking seeds in,	23, 180	Cake, wedding,	37
Analysis of soils,	138	Calico corn,	64
Ants, how to destroy,	111, 157	Canada thistles, to kill,	26, 58
APPLES, preservation of, succession of, selection of twelve, a chapter on, two hardest and most profitable, American in England,	113, 117, 101, 168, 78, 156, 177, 155	Cattle, lice on, new importation of,	17, 142, 194, 33
Apple, a new,	155	Carrots,	19, 199
Apple trees, diseased, dumplings, sugar,	105, 154, 174, 64	Cement for floors,	107
April, garden calendar for,	16	Cheese-making,	15, 110
Army-worm,	47	Chess and wheat,	20, 164
Ashes,	23	Charcoal for wheat and rye, in cider, compared with barn-yard manures, as a remedy for potato rot,	55, 94, 45, 129
for corn, wood, use and properties of,	131, 133	Chapping of hands, to prevent,	194
Asparagus,	157	Chestnuts planting,	107
cooking, giant, how to raise,	37, 79	Cholera morbus, simple remedy for,	66
B		Chimneys,	79
Barley,	18	Cisterns in barn-yards,	198
Barn-yards, cisterns in,	198	CLOVER, sowing seed, and wheat, curing, analysis of, on marshes, among corn, cost of seeding with, sod for wheat, on light soils,	19, 29, 27, 37, 59, 62, 104, 57, 110, 149, 152, 162
Bean soup,	49	Cows with calf, care of, and sheep, which are most profitable, treatise on, treatment of, middling and good, to dry up, Alderney,	15, 28, 41, 166, 63, 131, 151, 197
Beans, harvesting,	83	Corn, for fodder, seed, preparation of, selection of, culture of while growing, marker, new varieties of, soaking, ashes for,	17, 44, 53, 58, 18, 28, 43, 45, 74, 82, 104, 131
Bedbugs, to destroy,	178	Cob-meal, value of,	53
Bee-miller, to destroy,	46, 113	Compost manures,	110
Bees, how to winter, to take the honey without destroying, inquiry about,	52, 59, 69, 85, 120, 130, 164	Colors, to avoid mingling,	118
Beeswax,	108	Color from St. John's wort,	181
Beef, pickle for,	118	Coffee, substitutes for, French,	151, 165
Beef salt, to cook,	168	Copper, test of,	195
Beer ginger,	39	Crops, rotation in,	27, 46, 191
Biscuit, Hoosier,	118	Crossing, effects of,	34
Bloody murrain, prevention of,	47		
Bones as manure,	53, 129, 188		
Bots, cure for,	55		
Bot fly,	152		
Brass vessels, to prevent contracting verdigris,	63		
Breaking up new lands,	22, 36		
Bread-stuffs,	51		
Bread, rye and Indian, sour, a good way to use,	55, 151		
Backwheat,	55		
Budding, directions for,	26, 54		

Cranberry rake,	99	Ground, covering to useful,	107
Cranberries, raising,	115, 120, 163	Grapes,	63, 99
Currant bushes,	52		H
Cultivator on summer fallows,	59	Hams, superior mode of curing,	77
Harrison's,	61	pickles for,	118
Cutworm,	60	Harvesting machine,	91
	D	Hay dusty, what causes?	61, 95
Depth of plowing,	12	making,	64
Detroit apple,	194	caps for,	199
Diarrhœa, cure for,	56	Hasty-Pudding, a poem, noticed,	175
Drought, guards against,	194	Hawks, to prevent depredations by,	54
	E	Hives in horses, cure for,	61, 64
Education of females,	166	Heat, properties of,	71
of farmer's daughters,	75, 90	Hessian Fly,	112, 120, 148, 192
Eggs, preserving,	85	Hedges, remarks on,	155, 196
England, wages in,	194	Horse, how to stop a runaway,	14
wheat culture in,	131, 188	Horse, the,	104
hedges in,	196	disease,	148
Ewes and lambs,	39	thieves, punishing,	148
Expansion, effects of,	177	Horses, oat fodder for,	51
Experiment, important subjects for,	20	to prevent being teased by flies,	63
Eye, to remove dust from the,	182	to cure galls in,	71
	F	Horticultural society in Detroit,	17
Fall plowing,	105	Horticulture, influence of,	197
Farming, objects of,	53	Home-made guano,	60
and science,	92	Hot-beds,	129
Farin arrangements,	68	Hogs, salt for,	149
Farms, hints to those on small,	141	how to fatten,	171
Farmers' creed,	156	shall they run at large?	183
Felons,	53	Hommony, how to make,	200
Fence, new style of,	56		I
Fencing and ditching, machine for,	129	Ice-houses,	158
Fly Hessian,	112, 120, 148, 192	implements for garden use,	16
Fleeces, rolling,	54	that every farmer wants,	28, 43
Food and drinks for the sick,	100	Indian corn, (see corn)	
Fodder cut,	107	Inoculation, (see budding)	
Food, variety of,	162	Insects in a nursery,	52, 88, 95
Fruit yards,	17, 31	Increase of the West,	150
Fruit, to prevent injury to from frosts,	24, 58	Iron pots, to mend,	149
plundering,	85	Italian Rye-grass,	49, 122
in Michigan,	96		K
specimens of,	128	Kindness better than force,	51
trees,	100, 101	Kalamazoo Co. Ag. Society,	91, 130
how to get rid of,	38		L
forcing to bear,	47	Lardner's Lectures, notice of,	21
insects at the root of,	52, 88, 95	Lambs,	39
budding,	54	Large animals,	62
manures for,	63	Lands, worn out,	116
transplanting,	128	Lamp, to prevent the smoking of a,	167
protecting from mice,	149	Leaves, cherry and peach poisonous,	69
fall vs. spring transplanting,	153	practical use of,	126
diseases of,	185	Lice on cattle,	17, 142, 194
Fruit trade,	187	Lime,	109
Fruits, catalogue of,	149	degree of for wheat,	135
selection of choice hardy,	168	on orchards,	136
Fungi, their origin and growth,	72	Liniment,	157
Furniture varnished, to take white spots from,	194	Locust favorable to grass,	37
	G	yellow,	83
Galls in horses, to cure,	71	tree, the wood of,	174
Gang plow,	91	Lucern, culture and use of,	43, 97
Garden, plan of a,	114		M
Ginger beer,	39	Manures, barn-yard,	21, 76
Gingerbread, cold water,	173	for fruit trees,	63
Gooseberry, a preventive to mildew in,	83	compost,	110
Green-house plants,	17, 31	barn-yard and charcoal compared,	115
Grubs in sheep's heads,	18	rotted or unrotted,	146, 186
Grafting wax,	31	Manure,	82, 163
Green crops, manuring by,	65, 86, 91	soap as,	117
Grain-rigging,	74	swamp tufts as,	117
Grafting, fall,	75	soot as,	135
Grass, locust favorable for,	37	making,	181
cultivation of,	82	Manuring by green crops,	65, 86, 91
the sweet-scented vernal,	87, 104	May, garden calendar for,	31
laying down to,	110	Madder, its cultivation,	32
lands, feeding,	130	red, to color,	131
Grain, preparing for flouring,	194	Marl, inquiry and answer,	34

Marsh-meadows, reclamation of,	62, 183, 190	R	Rats, to destroy,	61, 163
clover on,	106		Ready rule for farmers,	163
Management of a good farmer,	76		Red-top seed,	190
Maple, the most rapid growing,	151		Report of Sup. of Public Instruction,	175
Melons and their malady,	29		Root culture,	17
Meadow grass, rough stalked,	50		Rotation of crops,	27, 46, 191
Meat tainted, to restore,	63, 151		Root-puller,	83
frozen,	182		Roofs, preservation of,	93
temporary plan for smoking,	182		Rust in wheat,	20, 36, 48
Metals, to prevent the corrosion of,	180		Ruta бага rot,	149
Millet on summer-fallows,	24, 42		Rye-grass,	47
Milk, souring in thunder storms,	72	S		
richness of,	120		Salt barrels repel insects,	83
bloody,	141		to aid decomposition,	106
Milkweed,—inquiry,	174		for hogs,	149
Michigan subsoil or trench plow,	80, 90		for mildew,	157
exports of for 1846,	177		for plum trees,	128, 143
Moss on buildings, to kill,	83		Science, connection of with agriculture,	123, 137
Molasses, to improve the flavor of,	136		Seed corn, preparation of,	18
Moths, to prevent the ravages of,	159		selection of,	26, 94
Mowing machine,	193		Seed wheat, preparation,	60, 74
Mutton,	49		Seeds, steeping of,	20
Murrain,	65, 142, 181		selection of,	16
Mulching,	172		soaking in ammonia,	23
Muffins,	174		Seed,	67
			old,	119
O			SHEEP,	46
Oats,	19		cure of scab in,	22, 42
Oat fodder for horses,	51		or cows, which are most profitable ?	28
Oat stubble,	152		spring management of,	29
Orchard-grass,	50, 140		shearing,	30
Orchards planting,	113		pasture for,	50
lime on,	136		water for,	51
Ohio State Board of Agriculture,	193		tar for,	63
P			foul nose in,	143
Parsnips,	20		wintering,	154, 173, 191
their culture and properties,	167		take care of,	155
Paint, cheap,	46		a cheap and warm shelter for,	172
or grease spots to extract,	63		to prevent dogs from killing,	194
Painting, time for,	105		diseases of,	194
Painters' cholic,	54		Sheep's heads, grubs in,	18
Peas,	19, 195		Shade trees,	50
seed,	64		Silk business,	194
Pears, selections of,	47, 168		Smut in wheat,	47, 189
new,	187		Soils, color of,	39
third growth of,	136		how to improve the quality of,	45
ripening in the house,	119		recruiting by its own vegetation,	135
the best five winter,	108		Soiling,	66
Pear trees, to improve,	119		Sorrel, how to get rid of,	86, 90
Peach preserves,	84		Soap as manure,	117
trees, protection of from frost,	154		labor-saving,	157
Peach, what is the best ?	157		Soups,	118
Peaches and peach trees,	137, 170		Soot as manure,	135
Pickles,	84		Spots, to take from leather gloves,	178
Plowing, depth of,	12, 42		Spring crops,	18
deep,	75, 119		wheat,	18
fall,	105		Steinkrout or tare,	54
Plow, Michigan sub-soil or trench,	80, 90		Strawberries, culture of in alternate strips,	69
gang,	91, 130		Stoves polishing,	165
Plaster as manure,	40		Stains, to remove from books,	177
cost of per acre,	149		Stables defective,	182
Plants frozen, to restore,	182		Summer fallow, cultivator on,	59, 74
Plank road,	193		naked,	144, 160
Plum, diseases of,	185		Sunflower,	129, 149
marmalade,	84		Sulphur in food,	194
trees, salt for,	128, 143		Sulphate of iron, effect on vegetation,	119
black warts on,	149, 185		Sugar, recipe for cleansing,	84
Potatoes,	19, 51		Swamp tufts for sandy soils,	117
earthing up,	101		Swellings,	159
Potato rot,	121, 148, 196			
Pork salt, to sweeten,	99	T	Tares,	54
pickle for,	118		Timbered lands, management of,	35, 58
vs. cotton,	194		clearing,	45, 48, 59
Prince & Co.	172		Tillage, an argument for clean,	66
Q			Tomato jelly,	84
Quince,	64, 155, 174		for a cough,	115
Quarrels,	159			

Trees, transplanting large,	81	WHEAT, bean and pea crops preparatory to,	63
to remove worms from,	92	harvest,	73
Turnep culture,	44	growing, experiment in,	81, 101
Turneps diseased,	136, 149	seed,	81, 98
Turkies fattening,	117	new variety for sowing late,	95
Turfing-machine,	89, 164	getting in,	97
	V	thick sowing,	98, 101, 132
Vines, to protect from bugs,	56, 92	culture in England,	131, 188
Vinegar making,	119, 134	lime for,	135
to strengthen,	167	plowing clover seed for,	152
	W	and ches,	164
Water, to make soft,	54	cultivation of,	168
Watering plants,	64	Whitewash, recipe for,	39, 120
Water-proof recipe,	136	for stone or brick building,	61
Weather predictions,	100, 198	Whortleberry,	82
WHEAT,	64, 165	Wind power, new,	39
rust in,	20, 36, 48	Wintering animals,	143
crop of 1845 and '46,	25	Worms, to remove from trees,	92
and clover,	27, 99, 126	WOOL, preparation, packing, &c.	102
crop, failure of in the eastern states,	30	specimens of,	20
extraordinary experiment with,	38	manufactures, progress of,	135
smut in,	47	fine,	150
analysis of,	56	depot,	162
and clover among corn,	57, 74, 80	Woodlands,	129
for seed, preparation of,	60, 97	Woolen match,	116
